

Report on the outcomes of a presentation and participation - Inclusiveness Target Countries Conference¹

Action number: CA20108

Grantee name: Milica Vasić

Conference Details

Conference title: 12th International Conference on Urban Climate

Conference web-page: <https://www.icuc12.eu/>

Conference venue²: World Trade Center in Rotterdam, The Netherlands

Conference start and end date: 07/07/2025 to 12/07/2025

Accepted contribution details

Title of the presentation: Enhancing urban resilience: The importance of micrometeorological measurements in Central and Southeast European cities

Co-authors: Stevan Savić, Boško Milovanović, Jelena Dunjić

Other details of the presentation: specify here any additional details related to the contribution (MPD1 - Urban climate and form. The display time was Tuesday, 8 July 2025, 13:30-Thursday, 10 July 2025, 13:30 in Exchange Hall at board number E50. Attendance time is Wednesday, 9 July 2025, 17:15-18:30. Conveners: Gerard Mills, Daniela Maiullari.

Outcome of the conference participation

Description of the outcome of the presentation of the accepted contribution, in terms of grantee's visibility, including the establishment of new contacts for future collaborations

(max. 500 word)

Attending ICUC12 was an incredibly valuable experience, both professionally and personally. I had the chance to engage with leading researchers and hear presentations that were both high in quality and deeply relevant to my field. My own poster presentation was very successful. Although I was part of the Urban Climate and Form session, researchers from various other sessions also visited my poster and showed great interest in my work.

Presenting the results of my study sparked positive discussions. I received encouraging feedback as well as practical suggestions for future development. Researchers from different fields offered insights on how to expand my work, especially through the use of remote sensing and machine learning. These

conversations helped me establish key connections that could support the continued development of my current, still unpublished, research.

The poster presentation also served as a way to connect more closely with the FAIRNESS network. The logo on my poster caught the attention of researchers involved in FAIRNESS whom I had not met before. I also connected with several PhD students whose supervisors are active in the project. These new connections may lead to future collaborations and opened up possibilities for using new data sources for comparison and analysis.

Since I am interested in exploring remote sensing and machine learning in greater depth, I spoke with several researchers about potential cooperation in the future. We discussed ways to collaborate on urban measurements and more advanced studies of urban climate. These new contacts will be valuable in expanding the scale and impact of my research.

As someone just starting a PhD, this conference helped me connect directly with scientists whose work I have been reading and learning from. Building relationships with them and exchanging ideas in person was incredibly motivating. It also reinforced the importance of the partnerships I have formed through FAIRNESS. I am excited about continuing these collaborations going forward.

This experience has already had a strong influence on the direction of my research. The opportunity to present in front of respected experts and to receive thoughtful, constructive input has been a turning point. FAIRNESS played an essential role in making this possible, and I am truly grateful for the chance to be part of it.

Acknowledgement of inclusion of necessary supporting documents to claim the grant

I confirm that the following documents have been uploaded on e-COST as an integral part of this report:

- the certificate of conference attendance.
- the programme of the conference or book of abstracts / proceedings indicating the presentation (oral) of the grantee.
- copy of the given presentation (oral).
